COVID RESPONSE

France Agro³ is committed to providing a safe and healthy environment to our students :

- Very strict about all sanitary protocols on campus, respecting the buildings' seat capacity limitations, and implementing the testing/informing/protecting system
- The Covid-19 cell is available at contact@franceagro3.org for any question that you may have
- Schools provide personal help to students who need any form of psychological help, through external hotline services, listening points, or the International Student Office.
